ADDITIONAL RISK FACTORS

When analyzing this Offering, prospective investors should carefully consider each of the following additional risks.

RISKS RELATED TO CATASTROPHIC EVENTS

YS ST NOTES LLC (the “Company”) may be subject to the risk of loss arising from direct or indirect exposure to various catastrophic events, which may have a material effect on global financial markets.

The Company may be subject to the risk of loss arising from direct or indirect exposure to various catastrophic events, including the following: hurricanes, earthquakes and other natural disasters; terrorism; and public health crises, including the occurrence of a contagious disease. To the extent that any such event occurs and has a material effect on global financial markets or specific markets in which the Company participates (or has a material effect on locations in which YieldStreet Management, LLC (the “Manager) operates) the risks of loss can be substantial and could have a material adverse effect on our investments.

RISKS RELATED TO CORONAVIRUS

The Company may be subject to risks arising from a novel strain of coronavirus (known as COVID-19), which has had a material effect on global financial markets and has caused a disruption of manufacturing supply chains and local and global economies.

In December 2019, COVID-19 surfaced in Wuhan, China, which has resulted in the temporary closure of many corporate offices, retail stores, and manufacturing facilities across China and South Korea, among other affected countries. These closures have caused the disruption of manufacturing supply chains and local and global economies, the duration of which remains uncertain. As of March 2020, COVID-19 has spread across the world, which may result in additional market disruptions. The extent to which COVID-19 may negatively affect the operations of the Manager and the Company’s performance is difficult to predict. Any potential impact on such operations and performance will depend to a large extent on future developments and new information that may emerge regarding the duration and severity of COVID-19 and the actions taken by authorities and other entities to contain COVID-19 or treat its impact. These potential impacts, while uncertain, could adversely affect the performance of the Company’s investments.
